

AMENDMENT UNDER 37 C.F.R. § 1.114(c)  
U.S. Application No. 09/773,248

**PATENT APPLICATION**  
Attorney Docket No. Q62889

### **REMARKS**

Claims 1, 2 - 8, 10 and 12 - 16 are herein cancelled. Claims 9 and 11 were previously cancelled. Claims 17 - 24 are herein added and are presently pending.

#### **I. 35 U.S.C. § 103 Rejections**

Claims 1, 2 - 8, 10 and 12 - 16 were rejected under 35 U.S.C. § 103 in view of a combination of U.S.P. Nos. 5,384,643 and 6,396,941 to Inga and Bacus, respectively. Claims 1, 2 - 8, 10 and 12 - 16 are herein cancelled, obviating this rejection. New claims 17 - 24 are herein added. New claims 17 - 24 draw their subject matter from the previous claims in addition to portions of the specification including pages 12 - 20, and therefore should be entered as the new claims do not introduce any new matter not a part of the originally filed application.

#### **II. New Claims**

New claims 17 - 24 each include the feature of the display terminal specifying a subscription to a desired folder stored in the image server and periodically checking the desired folder for newly arrived image data. The new claims further include the feature of the display terminal providing notification of newly arrived image data (when the image data meets the noted predetermined subscription conditions of a desired folder that has been subscribed to by the display terminal) and/or acquisition of the newly arrived data. New dependent claims 21 - 24 also include the subject matter of the display terminal automatically checking the image server for image data that has newly arrived in desired folders. Because these features are absent in the Inga and Bacus references the Examiner is respectfully requested to pass this application to issue.
